CMC and Diocese of Manchester Offering New Scholarship Opportunity
Applications open for students enrolled at St. Joseph Regional Junior High or Trinity High

(Manchester, NH— January 9, 2020)— Catholic Medical Center (CMC) and the Diocese of Manchester’s Catholic Schools Office are excited to announce the establishment of the CMC Heart & Hands Scholarship. This new scholarship is open to students attending St. Joseph Regional Junior High School or Trinity High School in the 2020-2021 academic year. This opportunity is available in addition to—and is not a part of—a student’s financial aid package; however, financial need is not a requirement for this scholarship program.

The Heart & Hands Scholarship seeks to assist motivated, mission-driven middle and high school students access a Catholic education. The scholarship represents the commitment and support CMC provides throughout the community. Similarly, Catholic school students are encouraged to practice community service as an essential component of their curriculum. We share the belief that community is at the heart of who we are.

Two CMC Heart & Hands Scholarships will be issued for the 2020-2021 academic year:

- Grades 7-8: St. Joseph Regional Jr. High School (*Manchester, NH*)
One (1) - \$1,500.00 scholarship
- Grades 9-12: Trinity High School (*Manchester, NH*)
One (1) - \$2,500.00 scholarship

Interested students must complete an application including an essay explaining their desire to lead and serve while making a significant impact in their community. Completed applications need to be submitted by 5 PM on March 1, 2020. The application can be found here: catholicnh.org/schools/visitors/scholarships.

About CMC:

Catholic Medical Center (“CMC”), a member of GraniteOne Health, is a nonprofit regional health system, with a commitment to delivering the highest quality and most advanced healthcare to patients across New Hampshire. CMC is the home of the nationally-renowned New England Heart & Vascular Institute, rated among the top cardiovascular programs in the country. Our doctors were the first in the state to perform a mechanical heart/left ventricular assist device implant and first in New England to implant the WATCHMAN™ for atrial fibrillation. CMC was also one of the first hospitals in New Hampshire to establish a joint venture with independent medical staff members when it became a partner in the freestanding Bedford Ambulatory Surgical Center and imaging center. CMC’s birthing unit, The Mom’s Place, was the first hospital in the country to have a neonatal unit based on “couplet care.” Our nationally-accredited Breast Care Center was the first in the state to use contrast enhanced mammography and SAVI SCOUT® localization for breast surgery. With primary care practices that care for the very young to the young at heart and our dedication to community outreach programs, CMC is helping to foster a healthier community, everyday.
